Project Number: SD-000031-169

Dear Resident/Owner:

In a letter dated April 3, 2017, you were informed of the work efforts needed to obtain necessary data for the retrofit design of the Stormwater Management facility in your community.

This letter is to inform you that geotechnical crews must return to the community to collect additional data from the Stormwater Management facilities. These include crews representing Engineering Consulting Services, LLC (ECS) and Connelly & Associates Drilling Services. This is geotechnical exploration to determine subsurface conditions that may impact grading requirements for the basin retrofit work and is crucial to completing the retrofit design. I have enclosed a map to depict the area where the crews will be working within.

If you have any questions or desire additional information, please contact me by phone at (703) 324-1016 or by email at Kenneth.Trinh@fairfaxcounty.gov.

Sincerely,

Ken Trinh, Project Manager
Watershed Projects Implementation Branch–South
